LITERATURE ON THE NATURAL HISTORY OF THE ARCTIC REGION
WITH SPECIAL REFERENCE TO ALASKA AND CANADA

The citations to the literature on the natural history of the Arctic region contained herein were compiled originally for use of the Army Air Forces Library. Frequent requests for such information also come from the Navy Department and other government agencies, and from many workers about to be detailed to Arctic regions. The list contains what are judged to be the more important publications on this subject. Much information also can be found in general natural histories not listed herein. The list does not include botanical publications, and relates more specifically to the vertebrates.
